

## **Jakson Group Unveils Next-Generation CPCB IV+ Compliant Gensets Powered by Cummins, in West Bengal**

**Kolkata, 15 June 2024:** Jakson Group, a leading Energy and Infrastructure Solutions Company and a key Genset Original Equipment Manufacturer (GOEM) for Cummins India Ltd. (Cummins), has introduced the next-generation CPCB IV+ compliant gensets powered by Cummins in the Kolkata, West Bengal. These advanced gensets, featuring CPCBIV+ compliant Cummins engines, were launched by Cummins on July 5th, 2023, for the Indian market.

Poised to elevate industry standards, these Cummins-powered CPCB IV+ compliant gensets from the Jakson Group are set to redefine excellence in the power backup industry with their unparalleled features and benefits.

Reflecting Jakson Group's 77+ years of commitment to quality and reliability, these Cummins powered gensets offer enhanced fuel efficiency, outstanding cost savings, and superior environmental protection. Additionally, their compact design and impressive load-taking capability optimize installation options without compromising performance.

At the launch of this advanced backup energy solution, **Mr. Sameer Gupta, Chairman & Managing Director of Jakson Group**, highlighted the significance of combining cutting-edge technology with sustainable energy initiatives. *"We are delighted to introduce the new generation of gensets in Kolkata, West Bengal. This innovation is vital for delivering consistent and reliable power supply, particularly in critical sectors, ensuring the uninterrupted operation of essential services. With each advancement, we are shaping a future where our solutions not only fulfill but surpass the evolving demands of our customers and our planet."*

**Mr. Gagan Chanana, CEO & Jt. MD, Jakson Distributed Energy Business**, stated, *"Our commitment to excellence in power solutions is exemplified by the introduction of the Cummins-powered CPCB IV+ Compliant Genset in West Bengal. This product, with its advanced features and unparalleled performance, will provide our customers with reliable, efficient, and sustainable power generation."*

Speaking during the launch event, **Mr. Manoj Nair, Business Leader, Cummins Power-generation India**, said, *"Cummins and Jakson share a long-standing commitment to excellence. Our CPCBIV+ compliant gensets integrate cutting-edge technology with our legacy of excellence, reinforcing our dedication to delivering superior performance, reliability, and sustainability. We are confident that this collaboration, built on shared values and spanning four decades, will only grow stronger as we move forward together."*

Designed to operate under extreme conditions, the new genset exceeds reliability expectations with innovations like a next-generation remote monitoring system, an advanced engine control module, and precise fuel and level sensors. Enhanced safety features and a low total cost of ownership further establish its market superiority, making it an ideal choice for diverse operational needs.

### **Key technological innovation:**

- Next-gen remote monitoring, allowing real-time monitoring from anywhere
- Audio-visual alarm to enhance safety and reliability
- Fuel and DEF (Diesel Exhaust Fluid) level sensors, ensuring accurate monitoring of fuel and diesel exhaust fluid levels
- Audio-visual alarm to indicate major faults, enhancing safety and reliability
- Lowest total cost of ownership with better fuel efficiency and extended oil and filter change intervals, maximizing cost-effectiveness for users

Jakson Group had also introduced the Cummins powered CPCB IV+ Genset in the northern region of India, further demonstrating their commitment to innovation and expansion across the country. By

seamlessly integrating advanced technology with a proven legacy of excellence, this new offering underscores our dedication to superior performance, reliability, and sustainability. As industries evolve and face new challenges, Jakson Group remains at the forefront, providing cutting-edge solutions that redefine the standards of energy for the future, empowering customers globally.

### **About Jakson Group**

Established in the year 1947, the Jakson Group has evolved from specializing in Diesel Generator Manufacturing to becoming a multifaceted Energy Solutions provider. The company's prowess encompasses Distributed Energy, Solar Power, Eco-friendly Energy sources, Alternative Fuels, and high-tech Energy Storage Systems, as well as Renewable, Civil, and Infrastructure EPC services. The Company has an extensive presence throughout India with 5 manufacturing facilities, 30+ Sales Offices, 7 international offices and a wide network of channel partners and dealers making it one of the top 10 energy companies in India. The company, with around 2500 employees, focuses on offering high-quality products and value-driven solutions. Drawing from extensive expertise in the Energy Industry, it serves more than 75,000 loyal customers. For more information on the Company, please visit [www.jakson.com](http://www.jakson.com)
